FCC MAIL ROOM

In the Matter of

Amendment of Section 73.202(b),
FM Broadcast Stations
(Woodbury, Georgia)

RM- 10038

To: Chief, Allocations Branch
Policy and Rules Division
Mass Media Bureau

PETITION FOR RULEMAKING

The undersigned hereby petitions the Federal Communications Commission for the initiation of a rulemaking proceeding to amend the FM Table of Allotments (Section 73.202(b) of the Commission's Rules) to assign FM Channel 233A as it's first aural service to Woodbury, Georgia, as follows:

City	Present	Proposed
Woodbury, GA	None	233A

1. Woodbury, GA is an incorporated community with a 1990 U.S. Census population of 1,429 persons and is in Meriwether County (1990 U.S. Census population of 22,411 persons). Woodbury has its own zip code and post office. There are two schools within Woodbury, including Woodbury Elementary School and Flint River Academy. Woodbury has a bank, two medical clinics, four churches, and many civic and social clubs. The primary area employment is in the form of tourism, agriculture and light industry. The city is governed by

an (elected) mayor, and a city council.

2. As indicated in the attached Engineering Statement (attached hereto as Exhibit 1), Channel 233A can be assigned to Woodbury using the reference site coordinates of 32-54-37N, 84-28-19W (NAD27). This reference point reflects a site restriction southeast of Woodbury. At the reference site, all minimum distance separation requirements of Section 73.202(b) of the Rules are met, as well as the principal community contour coverage requirements of Section 73.315.

3. In the event that Channel 233A is allotted to Woodbury, Georgia, the undersigned will file an application for a Construction Permit to operate a New FM broadcast station at Woodbury and, if authorized, will build the station promptly.

Dated: November 18, 2000

Respectfully submitted,

By Bernice P. Hedrick

EXHIBIT 1

1. This engineering exhibit supports a petition to amend the FM Table Of Allotments (Section 73.202(b) of the Commission's Rules) to assign FM Channel 233A to Woodbury, Georgia.
2. From Woodbury, a site restriction southeast is necessary to avoid short spacing with stations WYSF, Birmingham, Alabama (233C at 33-29-26N, 86-47-48W). and WSTR, Smyrna, Georgia (231C at 33-45-35N, 84-20-07W).
3. Table 1, attached, is an allocation study for FM Channel 233A, using the reference site. As demonstrated by Table 1, all minimum distance separation requirements of Section 73.207(b) of the Commission's rules are met from the reference site. In addition, as shown in Figure 1, attached, a Class A FM station constructed at that site will meet the principal community contour coverage requirement of Section 73.315.
